Cooperative fun where you work as a team to act out clues  
Great for large group gatherings, getting everyone involved

Includes Download for the Timer and Picture App.  
Phone or tablet will keep time and randomly take pictures of players doing the charades!

Charade Parade is a collaborative party game where you play tag team charades against the clock. The goal is to get all players to join the charade tag team before you run out of time. Start with a set of challenge cards and one player starts charading the word on the first card. Every time a player in the audience correctly guesses a charade, that member gets tagged and joins the stage of actors charading the next word. Soon only one player remains in the audience and all the other players are acting out the last word. If the one remaining audience player correctly guesses the final word before time runs out, then everybody wins the Charade Parade!

I took this into my classroom for a post-test activity with high school freshmen and sophomores. They had a blast! They were enjoying joining the parade and working together cooperatively. ~Anna"

- Courtney A

**NOTE FROM THE AUTHOR:  
THE POWER OF A  
TRANSITION TOOL**

"I created the snuggle monster concept as a way to help parents. My first child was resistant to bedtime and my wife and I struggled with him for years until we discovered transition tools. We found that when our child had warning that bedtime was coming, it helped him more easily transition from playtime to bedtime. When we made that warning a fun activity that he enjoyed, bedtime resistance was a thing of the past. Whether you use an activity like Snuggle Monster, or simply give your child some advance notice that bedtime is near, they will transition more easily. It helps a child process things differently and react less negatively. If you've never used transition tools, try it, you will be amazed!"

# OUR POLICIES

**FREIGHT SAVER PROGRAM:** Continuum Game's Freight Saver is a life saver!

- Order over \$300 of Freight Saver items and receive FREE FREIGHT on your entire order
- All freight savers are showcased in the freight saver section of our catalog ... look for the truck icon!
- Free freight only applies if the invoice is prepaid via credit card OR paid on time via check or ACH.
- If a credit card is used to pay an invoice where terms were offered, only a 50% freight reduction will be applied.
- Residential address surcharges, lift gate fees and inside delivery fees will not be waived as part of the free freight offer.

### BACKORDERS:

- Continuum Games will ship backordered items when possible but may cancel backorders if the backorder is of small size (due to freight inefficiency).
- If the original order qualified for free freight, but the backorder (on its own) does not, Continuum Games will contact you with options regarding your backorder.
- Continuum Games can only offer free freight on a backorder if the backorder contains \$100 of freight saver items.

### PRICING:

Continuum Games pricing is set based on the pricing of the manufacturers we represent. All pricing printed in catalogs, price sheets and other material is subject to change without notice.

### Damage Claims and Shortages:

- All damage and shortage claims must be reported within 5 business days of receipt.
- Continuum Games may require images of damaged items or product returns before issuing credit.

### Terms:

Continuum Games may grant terms to credit worthy accounts. To receive terms from Continuum Games:

- A valid credit card must be kept on file
- By providing a credit card and requesting terms, you authorize Continuum Games to run the credit card if any invoice becomes 15 days or more overdue according to the records of Continuum Games, Inc.
- If your invoice is more than 15 days overdue and your card is declined for any reason, a 3% late fee will be applied to any overdue invoice.

### ONLINE SELLER POLICY:

Continuum Games is a distributor to brick and mortar retailers. Most of the product we sell is restricted for online resale on third party web sites like Amazon.com, Walmart.com, Ebay.com, etc.

- If you intend to sell products on third party online marketplaces, you must disclose this with each order.
- Continuum Games will share with you all online resale policies and identify restricted and available items.
- Sellers who break these policies will be reported to the manufacturers, Amazon and other third-party sites as violating copyright, trademark and brand registry.
- These violations can impact the status of your online selling accounts. Please do not break these policies as they will be enforced.
